To the ARBiH 3rd Corps Command
For Commandant

In order to achieve the best possible effect in combat operations by our forces against HVO forces at Jablanica it was proposed to us by Command from Jablanica to cut off electricity at RP 220 KV. If we switch off about 80 MW for Southern Dalmatia we would also switch off about 40 MV for Bosnia (Kakanj). Consult dispatchers at Kakanj and give us back information, as soon as possible, on how to proceed as and weather the switching off would affect the system in Bosnia.
