NOTE:

The majority of SIS personnel in units – zones, brigades, battalions and MTDs were appointed in violation of the valid decision on the internal organisation of the

defence department of the HZ HB /Croatian Community of Herceg-Bosna/ number 02-1-496/93, dated 20 May 1993, which prescribed the procedure for appointing personnel to individual posts in the manning table, so there are no legal decisions on appointments. The proper procedure envisages that the Assistant Minister for Security either appoints or proposes SIS personnel to be appointed to certain posts in the manning table. This procedure has mostly been violated so far in the way that brigade commanders appointed SIS personnel without seeking the approval of the Assistant Minister for Security.

Therefore, we propose the following:

1. To carry out an assessment of current SIS personnel in units ranging from zones to battalions. A large number of personnel are acting outside the SIS system, or are of such quality that it will be hard for them to fit into the planned, systematic work of the service.
2. After that, to start issuing new appointments for all SIS personnel in units, in accordance with the valid legal procedure.
